Ethan Hulme

Aspiring Software Engineer/Developer

First-year BSc Computer Science student with a strong interest in Robotics and Artificial Intelligence. Solid foundation in programming with hands-on experience in Java, Python, C++, HTML, and CSS. Skilled in both software development and front-end web technologies, gained through academic projects and self-driven learning. Passionate about developing intelligent systems and creating innovative user experiences. Eager to contribute to dynamic development teams and grow within the tech industry.
